Curricular Materials

The term “curricular materials” is defined as textbook; instructional media, including software; audio/visual media; and internet resources.

The Board is legally responsible for approving and to providing the necessary curricular materials used in the District. Textbooks and instructional materials should provide quality learning experiences for students and:

1. Enrich and support the curriculum;
2. Stimulate growth in knowledge, literary appreciation, aesthetic value, and ethical standards;
3. Provide background information to enable students to make intelligent judgments;
4. Present opposing sides of controversial issues;
5. Be representative of the many religious, ethnic, and cultural groups and their contributions to our American heritage; and
6. Depict in an accurate and unbiased way the cultural diversity and pluralistic nature of American society.

The Board may establish a curricular materials adoption committee for the purpose of advising the Board on selection of curricular materials for use within the District that are not covered by the State curriculum materials committee.

Curricular materials may be made available for loan to students when the best interest of the District and student will be served by such a decision. Students will not be charged for normal wear. They will be charged replacement cost, however, as well as for excessive wear, unreasonable damage, or lost materials. The professional staff will maintain records necessary for the proper accounting of all curricular materials.

Any person may submit oral or written objections to any curricular materials under consideration.

A complete and cataloged library of all curricular materials and all electronically available curricular materials adopted in the immediate preceding three years shall be maintained at the State Department of Education.
